

Oleksii Zaichenko

Software Engineer

alex.zaychenko0@gmail.com

+380508208996

Summary

Performance-focused programmer specialized in back-end development of distributed systems. My primary area of expertise is distributed applications based on modern .net stack or golang, but I also have experience with JS/TS. Lately, I've been devoting my spare time to learning rust and its technology stack.

Professional Skills

C#, modern .NET stack	Go	SQL (mostly Postgresql)
Docker	Kubernetes	Bash
Lua	Linux (over 10 yrs of user exp)	JS/TS
Elastic Search/Open Search	gRPC	HashiCorp Nomad, Consul, etc.
RabbitMQ	Rust (read Rust book, developed a basic HTTP server)	

Work experience

Nextradata (on behalf of Svitla Systems)

Senior Back-End Engineer
03/2018 - present

Perform a full cycle of analysis, prototyping, development, and deployment of the back-end part of the information system that aims to provide support for mass mailers in the USA. The web-based system allows users to upload and sanitize an address book, design templates for letters, envelopes and postcards using an uploaded address book and generate a ready-to-print PDF document with postal pieces for all addressees along with all required postal documentation.

Betlab

Senior/Lead .NET Developer
02/2016 - 03/2018

Designed and developed a part of e-gaming service-oriented solution with goal of automation of advertisement campaigns and bonus promotion of online betting platform.

Affymetrix (on behalf of Svitla Systems)

Senior Software Engineer
09/2014 - 02/2016

Participated in development of various applications with main focus in genetic analysis used in lab and in-vitro diagnostics of cancer and other serious diseases including a desktop software for high-level control over the sequencing of human DNA.

Terrasoft

Business Applications Developer
07/2013 - 09/2014

Design and development of both front-end and back-end of general purpose web-based CRM system.

IT-Enterprise

Software Engineer
07/2011 - 07/2013

Participated in development of highly customizable ERP platform. Automated various calculations related to production material resource planning.

Education

National Technical University of Ukraine "Kyiv Polytechnic Institute"

2006 - 2012

Faculty of Thermal Energy, master's degree in Computer-Integrated Manufacturing Processes.
